

**Who we are.** Holmes Fire is a specialist fire engineering consultancy firm, with offices in Australia, New Zealand and the United States. One of the first fire engineering firms within Australia and New Zealand, Holmes Fire has over 20 years in business, and over 60 fire engineers, making Holmes Fire the largest and most experienced fire engineering firm in Australasia.

Holmes Fire has a large multicultural team and we are well practiced at providing in depth exposure to fire engineering consulting.

**The Opportunity.** We are seeking applications from final year students and recent graduates of the Fire Safety Engineering course from the University of Queensland to work in one of our offices across Australia, New Zealand or the United States. The position requires a commitment of 12 months.

The entry-level Fire Engineer position will provide you with a broad insight into the role of a consulting fire engineer, with exposure to clients, design teams and approval authorities. You will be involved in numerous projects, from preparing fee submissions, attending design team meetings, undertaking detailed design and construction inspections.

You will assist our fire engineers with building code assessments and performance based designs. In providing fire safety designs you will undertake qualitative and/or quantitative analyses, inclusive of egress calculations, smoke spread modelling, radiant heat calculations, and structural fire engineering.

You will accompany engineers to site inspections, meetings with clients and approval authorities.

The culture of Holmes Fire will ensure you enjoy your time with us, both in and out of the office, with four weeks paid leave for you to see the sights.

**Apply.** Please submit your application with a CV and cover letter via e-mail: [james.oneill@holmesfire.com](mailto:james.oneill@holmesfire.com)

We look forward to hearing from you.

James O'Neill  
Branch Manager, Brisbane

**Qualifications.** Final year students and recent graduates of a Fire Safety Engineering degree.

**The Salary.** We offer competitive salaries for the work experience position, commensurate with your experience and aptitude.

Four weeks paid annual leave will be provided.

We will also provide reasonable compensation towards your airfare and visa (if applicable), payable on your commencement of employment.

Holmes Fire will also provide accommodation for your first week in any city outside of Brisbane.

**Visas.** Australian residents and permanent residents do not require a visa to work in New Zealand.

For any other nationalities, the offer is subject to approval by the Immigration Department for both Holmes Fire to sponsor the position and your visa application. Holmes Fire will arrange the sponsorship application, applicants are responsible for obtaining the visa.

This is a simple process, however requires a long lead time to receive approval. Further information will be provided to successful applicants.

Working in the United States is subject to specific requirements.
